

Sunrise Insulation

1701, VASUDEO HEIGHT, MULUND-GOREGAON LINK ROAD, BHANDUP (W), MUMBAI – 400078.

We are pleased to introduce our self as one of the leading insulation contractor. Established in the year 1984, Based in Mumbai, India. We have now created a benchmark for the industry & is a highly innovative insulation service provided with most advance technology to meet IS, BS & ASTM standards.

OUR SERVICE

Our top class product and services include hot - cold insulation, thermal insulation, spray dryer insulation, reactors, duct insulation, sound proof acoustics insulation and pipe insulation, among others. We also deal in tank insulation, rapping coating, sheet metal fabrication, duct fabrication, false ceiling, painting works and supply insulation material

We supply products that are made using only latest technology and top grade materials sourced from trustworthy vendors. For this reason, our products are acknowledged for their conductivities and features. Our skilled and experienced professionals are hardworking and expert in their job. Their profound knowledge has helped us achieve the impossible.

We are a unique combination of people & technology together with sound business ethics & a focus on product and service development contributing in raising the benchmark of this competitive global thermal insulation industry.

OUR QUALITY

We, at Sun Rise Insulation, adhere to all the industry standards and norms and take care that all our products are provided accordingly. Our teams of quality controllers carry out stringent check on all our products for quality compliance before finally dispatching it to customers.

We believe in following professional and business ethics in addition to transparent operations. These principles have helped us achieve a respectable position in the industry.

Sun Rise Insulation is a specialized and service provider of insulation products. We present a comprehensive range of insulation products that are extensively in demand by clients from varied industry segments.

Clients highly appreciate our products for their thermal as well as mechanical properties. Our expertise lies in offering a wide array of insulation products in varied lengths and thickness. Sun Rise Insulation sources all its products from best quality materials procured from leading suppliers, who are reckoned for their product's quality.

OUR SKILLED LABOUR

Our skilled manpower is well experienced and possesses immense knowledge in their respective domain. They put in their hard work to deliver top class products to our clients. Sun Rise Insulation is very particular about maintaining the quality of the products it provides. Therefore, we have hired proficient quality controllers who make sure the products are provided in compliance to the industry standards.

We work to serve with unmatched quality, dedicated work force in order to achieve 100% customer satisfaction. We work on a 360 degree improvement basis, what this all mean for you is faster lead time and greater flexibility in product and service line to meet your growing demand and changing needs.

We use insulation material such as stone wool or rock wool which are manufactured from various types of di-based rocks, mainly basalt of specific predetermined chemical composition, melted at high temperature in technically advanced process. This gives them 100% fire proof property classified as Class O, High Noise reduction coefficient, very Low K-Value, do not cause, initiate or promote and kind of corrosion.

We offer a wide range of insulation products and services for different application of thermal insulation areas for both hot and cold insualation.

The following are the list of sulphuric acid companies we work regularly since past many years.

• Dharamsi Morarji Chemical Company-Raigad

• Rama Krishi Rasayan

• Krishna Phoschem

• Dharamsi Morarji Chemical Company-Gujarat
